

6 April 1976

MEMORANDUM FOR THE RECORD

STATINTL

FROM : [REDACTED]  
Chief, Operations Division

SUBJECT: Contact with the Social Security Administration

On Thursday, 1 April 1976, I met with members of the Social Security Administration's Bureau of Data Processing to discuss and turn over to them documentation on the 301 Simulator package now in operation in OJCS. Present at this discussion was myself, [REDACTED] AD/OJCS, Mr. [REDACTED] USD/OJCS, Mr. Dexter Rasmussen, Social Security Administration and Mr. James Evans, Social Security Administration. The meeting lasted approximately 90 minutes and consisted entirely of technical discussions surrounding the content of the 301 Simulator. We provided the Social Security Administration representatives with two copies of the documentation (each copy consisting of two manuals) and the source code for the 301 Simulator consisting of about two boxes of IBM punched cards.

The only other topic covered in this discussion was the agreement between Mr. Rasmussen and myself that we would act as the focal point for our respective Agencies regarding the further exchange of technical information on this subject.
